

ARSLAN AHMED

ASP.NET Web Developer

Karachi, Pakistan | 0339-5748799 | arslanahmedkhoso91@gmail.com

PROFESSIONAL SUMMARY

ASP.NET Web Developer with hands-on experience designing and building full-stack web applications using ASP.NET Core MVC, ASP.NET Core Web API, and Angular. Computer Systems Engineering graduate with strong command of Entity Framework Core, Identity-based authentication, RESTful API design, and SQL Server database development. Proven track record of independently building and shipping multiple end-to-end web applications, from database design through secure API development to responsive front-end delivery. Seeking to bring strong ASP.NET and full-stack development skills to a growing engineering team.

TECHNICAL SKILLS

Backend: ASP.NET Core MVC, ASP.NET Core Web API, C#, Entity Framework Core, ASP.NET Core Identity, RESTful API Design, LINQ

Frontend: Angular, TypeScript, HTML5, CSS3, Bootstrap, Angular Routing & Components, Reactive & Template-Driven Forms

Database: MS SQL Server, MySQL, Code-First & Database-First Migrations

Tools & Other: Visual Studio, Visual Studio Code, Git/GitHub, Postman, SMTP Email Integration, QuestPDF, ClosedXML, Chart.js, CORS Configuration, SSL/HTTPS Setup

Concepts: Role-Based Authorization, JWT Authentication, MVC Architecture, Component-Based Architecture, CRUD Operations, API Integration

KEY PROJECTS

Student Management System | *Angular, ASP.NET Core Web API, Entity Framework Core, SQL Server*

- Built a full-stack student management application with an Angular front end consuming a secured ASP.NET Core Web API.
- Implemented CRUD operations for student records with reactive forms and API-driven data binding.
- Resolved CORS, SSL, and routing configuration issues to enable smooth Angular–Web API communication.

EProject — Education Management System | *ASP.NET Core MVC (.NET 8), EF Core, Identity, SQL Server*

- Developed a complete, fully responsive Education Management System with role-based access control for Admin, Faculty, and Receptionist users.
- Implemented fee receipt and certificate generation using QuestPDF, and Excel exports using ClosedXML.
- Built an analytics dashboard using Chart.js to visualize student and revenue data.

ShopEase — E-Commerce Platform | *ASP.NET Core MVC, EF Core, SQL Server, SMTP*

- Built a complete e-commerce web application with product catalog, shopping cart, and checkout flow.
- Implemented session-based authentication and an admin panel for product and order management.
- Integrated SMTP email functionality via System.Net.Mail for order confirmations and notifications.

Angular Task Manager (Auth + CRUD) | *Angular, TypeScript, Bootstrap, LocalStorage*

- Built a task management application with authentication guard, routing, and full CRUD functionality.
- Designed reusable Header/Footer components and a clean, Bootstrap-styled responsive UI.

EDUCATION

Bachelor of Engineering — Computer Systems Engineering

Dawood University of Engineering and Technology

2025

ADDITIONAL LEARNING

- Currently expanding skill set with Python, MongoDB (NoSQL database, CRUD operations), React.js, JavaScript, and Angular
